Allowable Subject Matter

Claims 12-28 as presented in the amendments to the claims filed 06/02/2010 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The claims in this application have been allowed because the prior art of record fails to disclose, either singly or in combination, the claimed invention, including determining instants of impact of a second shoe by at least one accelerometer and where the instants of impact are taken into account for calibrating in time a dynamic measurement of the distance between shoes by at least one magnetometer.

The closest prior of art of record includes:

US 5,807,283 to Ng who discloses a stride monitoring device including a first shoe including at least one magnetic mass and a second shoe including a least one magnetometer configured to measure a magnetic field and US 7,174,277 to Vock et al. who disclose a stride monitoring device including a second shoe including an accelerometer configured to measure an acceleration and to output acceleration signals based on the measured accelerations, however, neither Ng nor Vock disclose, teach or fairly suggest where instants of impact are taken into account for calibrating in time a dynamic measurement of the distance between shoes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
